

QRC Turningpoint integration with Blackboard (2014-2015)

Turningpoint-Blackboard integration is used to upload grades from Turningpoint to the Blackboard gradecenter. To do this the following steps need to be followed:

BLACKBOARD:

1. Make sure the Turning technologies registration tool is on > if not contact E-Learning support.

STUDENT:

2. Ask students to create a ResponseWare-account, **IMPORTANT:**

email: TU Delft student email

student-ID: NetID

3. When ResponseWare-account is created, students can link their account to their course via the Turning technologies registration tool.

BLACKBOARD:

4. Go to the Turning technologies registration tool in Blackboard > Download Turningpoint participant list.

TURNINGPOINT:

5. Download software (no-install version) from **www.turningtechnologies.com** > unzip software.

6. Open Turningpoint > Powerpoint polling > Load list > import the list downloaded from Blackboard.

- Make sure the interactive slides have scores attached to it.

7. When presentation is finished, close powerpoint, go to the Manage-tab > select participants list > results manager >

Integrations :

Server address: blackboard.tudelft.nl

Username: NetID

Password: NetID password

Select an institution: -

8. Connect and upload grades to Blackboard gradecenter!
